Dear Sir:

This report is being written pursuant to section 7 (2) of the Public Act 2, P.A. of 1968 as amended. I have made an examination of the financial statements of the above mentioned local unit of government. My opinion dated 07/15/2004 with respect to these statements is included in my accountant's report submitted to you under date of July 1, 2005.

In accordance with the foregoing examination, I have complied with the minimum requirements as outlined in "Bulletin for the Audits of Local Units of Government in Michigan" (BULFALUG), as revised.

In accordance with the provisions of P.A. 275 of 1980, as amended, there are no accumulated deficits in the various fund balances of the above local unit, other than as disclosed in the financial statement including the notes thereto, or as described in the report of comments and recommendations. In addition, we found no substantive instances of noncompliance with the provision of P.A. 2 of 1968 (The Uniform Accounting and Budgeting Act) as amended, other than as disclosed in the financial statements including the notes thereto, or as described in the report of comments and recommendations as prescribed by the report guidelines for instances of non-compliance including in appendix B of the BULFALUG MANUAL.

I hereby state and affirm that I am a Certified Public Accountant registered to practice in the State of Michigan and am independent insofar as that term is defined by my profession.

A copy of my report of comments and recommendations, which has been forwarded to the aforementioned local unit of government, is enclosed.

In my report for the above-mentioned period, I have expressed an unqualified opinion with respect to the financial statements contained in this report.

Township of Caseville  
Caseville, MI 48725

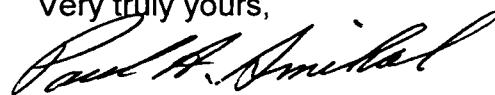

I have examined the combined financial statements of the Township of Caseville, Caseville, MI, and the combined individual fund, and account group financial statements of the Township as of and for the year ended March 31, 2005, as listed in the table of contents. Also in my opinion, the combining individual fund, and the account group financial statements referred to above present fairly the financial position of the individual funds and account groups of individual proprietary funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

My examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole and on the combining, individual fund, and account group statements. The accompanying financial information listed as supporting schedules in the table of contents is presented for purpose of additional analysis and is not a required part of the combined financial statements of the Township of Caseville, Caseville, MI. The information has been subjected to the auditing procedures applied in the examination of the combined, combining, individual fund, and account groups financial statements and in my opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

**NOTES TO FINANCIAL STATEMENTS**

**TOWNSHIP OF CASEVILLE  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED MARCH 31, 2005**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

**ACCOUNTIN FOR CAPITAL EXPENDITURES:**

Generally accepted accounting principles applicable to governmental units as promulgated in the American Institute of Certified Public Accountants industry audit guide titles "Audit of State and Local Government Units" provide for differing accounting treatment for capital expenditures dependent upon the category of the funds from which the expenditures are made. In enterprise, intergovernmental service and certain trust funds, capital expenditures are capitalized in the fund and depreciated in all other funds, including the General Fund, capital expenditures are treated in the same manner as other current expenditures in the fund and are then to be capitalized in a "general fixed asset" group of accounts, which is located on page seven.

**EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETARY FUNDS:**

P.A. 621 of 1978, section 18 (1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the Township's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The approved budgets of the Township for these budgetary funds were adapted to the (functional) level.

During the year ended March 31, 2005, the Township had expenditures in certain budgetary funds which were in excess of amounts appropriated.

FUND	Total <u>Appropriations</u>	Amount of <u>Expenditures</u>	Budget <u>Variance</u>
POLICE	196,000	202,341	(16,499)

**RESTRICTED ASSETS**

Certain proprietary fund assets are restricted for making principal and interest payments on bonds, making repairs and replacement to the existing water system, or making additions, improvements, enlargements or extensions to the existing water system. These assets are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenant and Michigan law.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED MARCH 31, 2005  
(CONTINUED)**

**NOTE 3 – DESCRIPTION OF REPORTING ENTITY**

Caseville Township is located in Huron County and has a population of approximately 2,000. The Village of Caseville is located within Caseville Township with the remainder being shoreline resort and rural farming. All funds in the Township are controlled by the Township Board and are included in the audit.

**NOTE 4 – BASIS OF ACCOUNTING**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. With this measurement focus, all assets and liabilities associated with the operations of these funds are included on the balance sheet. Fund equity (i.e. net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements presented increases (i.e. revenues) and decreases (i.e. expenses) in net total assets.

All proprietary funds and nonexpendable trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operations of these funds are included on the balance sheet. Fund equity (i.e. net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increase (i.e. revenues) and decrease (i.e. expenses) in net total assets.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay the liabilities of the current period. The government considers property taxes as available if they are collected within 60 days after year-end. A one-year availability period is used for revenue recognition for all other government fund revenues susceptible to accrual. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due.

Those revenues susceptible to accrual are property taxes, federal and state grants, special assessments, license, interest revenue and charges for services. Fines, permits and sales tax and other state revenues are not susceptible to accrual because generally they are not measurable until received in cash.

**PAUL A SMIHAL  
CERTIFIED PUBLIC ACCOUNTANT  
6915 N. CASEVILLE ROAD  
CASEVILLE, MICHIGAN 48725**

07/01/2005

Honorable Supervisor and  
Members of Township Board  
Township of Caseville  
Caseville, MI 48725

Gentlemen:

I have recently concluded my examination of the accounting records of the Township of Caseville for the year ended March 31, 2005. In connection with that examination, I wish to make the following comments and recommendations.

**GENERAL FIXED ASSET GROUP OF ACCOUNTS**

Generally accepted accounting principles require that a general fixed asset group of accounts be maintained by all governmental units. I was pleased to see that the Township has a list on file, and that it was reviewed before the audit.

**INVESTMENTS**

I was pleased to see that the Township invested excess money into savings resulting in a total of \$ 24,618 interest income for all funds combined.

**BUDGET**

P.A. 621 of 1978, section 18 (1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the Township's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The approved budgets of the township for these budgetary funds were adapted to the (functional) level.

## RECOMMENDATIONS

In our review we noted that dates on deposits don't match the dates used on the Clerks records. This should be corrected. This results in receipt numbers and dates being out of order.

Also when recording special assessment principal and interest payments, the principal and interest needs to be recorded in the accounts set up on the records

Hard copies of all special assessments which record tax roll numbers of property owners along with assessment fees should be kept until the project is completely paid off and the debt is cancelled.

When selecting new account numbers caution should be used to make sure the new numbers comply with the uniform chart of accounts.

The Gypsy Moth Fund also has revenue of \$ 35,627 and expenses of \$67,260 there is an accumulated fund balance of \$ 159,178. It appears the tax levy could be reduced

## OTHER

I wish to Thank the Officials of the Township of Caseville for their cooperation during the course of my examination

Very truly yours,

A handwritten signature in cursive script, appearing to read "Paul A. Smihal".

## **Caseville Township**

### **Management's Discussion and Analysis Fiscal Year ended March 31, 2005**

Our discussion and analysis of Caseville Township's financial performance provides an overview of the Township's financial activities for the fiscal year ended March 31, 2005. Please read in conjunction with the Township's financial statements.

#### **Financial Highlights**

The following points represent the most significant financial highlights for the year ended March 31, 1005. These points are discussed in further detail in this discussion and analysis.

- 1 The Fund balance in the general fund increased from \$708,425 to \$833,543. The increase of \$125,118 is due primarily to an increase in investments and an increase in tax revenue due to new housing construction.
- 2 The liabilities of the Township were reduced by \$1,103,904. This decrease is due to the repayment of a large portion of the water service debt, and the payment in full of several road special assessment funds.

#### **Using This Annual Report**

This annual report consists of a series of financial statements. The statement of net assets and the statement of activities provide information about the activities of the Township as a whole and presents a longer term view of the Township's finances. This longer term view uses the accrual basis of accounting so that it can measure the costs of providing services during the current year, and whether the taxpayers have funded the full cost of providing governmental services.

The fund financial statements present a short term view. They tell us how the taxpayers' resources were spent during the year, as well as how much is available for future spending. Fund financial statements also report the Township's operations in more detail than the government wide financial statements by providing information about the Township's most significant funds.

**Government Activities**

This is the first year of implementation of GASB No. 34. Because of this, comparative information on a government wide basis is not available for this year, but will be presented in the Management's Discussion and Analysis for the year ending March 31, 2006.

**Capital Assets and Debt Administration**

As of March 31, 2005, Caseville Township had a total of approximately \$201,373 (net of depreciation) invested in capital assets including land, buildings, and equipment.

Debt service totaled \$507,581 principal and \$434,632 interest in the past year on long term debt with a remaining outstanding balance of \$9,617,187.

**Economic Factors and Next Years Budgets and Rates**

The Township is in the third year of road maintenance and improvement projects. The Board will also consider selling land assets to finance the building of a new Township Hall.

**Contacting the Township's Management**

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the Township's finances and to show the Township's accountability for the money it receives. Questions about this report or requests for additional information should be addressed to Michelle Stirrett, Caseville Township Clerk, 6767 Main Street, P O Box 519, Caseville, Michigan 48725.
